

## Manage Safety Data Sheets

Maintaining up-to-date Material Safety Data Sheets (MSDS) on all your chemicals is very important for operational safety. This way, you can avoid costly fines or operational disruptions. Insemito will make sure that you do not have compliance issues or risk having an unsafe workplace.

Therefore, the MSDS documents are carefully stored, effectively organized and managed, so that field staff and operations can always get access to the documents.

### Manage Different Languages

- Track expiry dates of certificates to ensure compliance with industry regulations
- Receive notifications when updates are needed

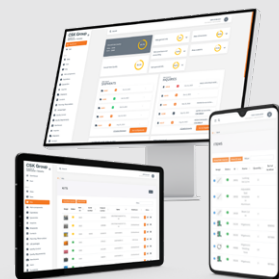

### Organizing MSDS Documents

- MSDS documents must be easily accessible and well-organized
- Store all MSDS in a secure, centralized platform, which allows quick access to all documents
- Keep track of all the company MSDS from any device
- Manage workplace instructions

### Recommendations

- Regularly upload updated MSDS, we suggest reviewing min. every second year
- Receive automatic reminders for upcoming reviews on MSDS
